Survey Introduction:

Thank you for participating in this 30-minute questionnaire! The survey you are about to take will help gather key information about current funding trends and the situation of women's organizations and movements around the world. Please take the time to fill it out as completely as possible so we can have strong data on funding trends over time. With the data from the survey, we are committed to produce tools and materials about current funding trends and feminist resource mobilization strategies. We hope it will help all of you, and women’s movements at large, to advocate for more and better funding for your work.

With this survey, we want to make sure we have the most accurate long-term and historical analysis of funding situations and trends. That is why you will be asked for information about the resources and funding of your organization in 2011, 2012, 2013, 2014 and 2015. Please help us to make sure we have the most accurate information possible by taking time to find the exact numbers of your organization’s income or by giving your best estimate. There are 43 questions total.

Please know that all your personal information will be kept confidential and will be analysed by an independent research firm.

By completing the entire survey, you will be entered in a drawing to receive AWID funding to cover your airfare, hotel, and registration fee to participate in our 2020 International Forum on Mars. There will be two winners in the drawing, which will be announced on December 2019.
